30 January 1956

MEMORANDUM FOR: Project Director

SUBJECT: Reproduction Responsibilities of the DD/I Photo  
Intelligence Photographic Laboratory

1. The original concept of the expanded Photo Intelligence organization was to provide only sufficient photographic reproduction facilities necessary to fulfill Agency requirements. The existing organization and budget has been based on these limited reproduction facilities.

2. It has been indicated at various times that the DD/I Photo Intelligence reproduction facilities will be charged with the responsibility for providing material, on a selective basis, to Agencies and services other than CIA. To fulfill this requirement will entail an increase in personnel and budget ceilings which must be instigated immediately. In addition to personnel and funds, it is essential that plans be prepared for the laboratory and the proper equipment be placed on order.

3. In view of the above, it is requested that a definite policy be established for preparation of additional photographic materials other than those required by CIA.
